ADVANCED NOTICE NEEDED FOR CITY INSPECTIONS

The City of Dothan's Permits and Inspections Office is now requiring an advance notice for inspections. Because of escalating energy prices, all requests for building, plumbing, electrical, gas and mechanical inspections will require a 12 hour advance notice. Requests for inspections of slabs and footer (concrete) will require a four hour advance notice. To contact the Permits and Inspections Office, please call (334) 615-4450.
